[Accounting For Managers Interpreting Accounting](#)

Managerial accounting is the process of identifying, analyzing, interpreting and communicating information to managers to help managers make decisions within a company and to help achieve business goals.

[Financial Accounting vs. Managerial Accounting](#)

Modern Accounting operates within a broad socio-economic environment, and so, the knowledge required of the accountant cannot be sharply compartmentalized. It is therefore, difficult to discuss one area without relating to other areas of knowledge. We place a great emphasis on the conceptual knowledge. The accountant should not only know but he should understand. From the above it is clear ...
