International Trade Theory and Policy: A

Review of the Literature* by ... Tracing back the evolution of what today is recognized as the standard theory of international trade, one goes back to the years between 1776 and 1826, which respectively mark the publications of Adam Smith's (1986 [1776]) Wealth of Nations and David Ricardo's Principles of Economics (1951). The two volumes herald ...

From Theory of International Politics:

National politics is the realm of authority, of administration, and of law. International politics is the realm of power, of struggle, and of accommodation. . . . States, like people, are insecure in proportion to the extent of their freedom. If freedom is wanted, insecurity must be accepted. Organizations that establish relations of authority and control ...

Although still a popular theory in history and sociology, dependency theory has disappeared from the mainstream of economic theory since the collapse of Communism in the early 1990s. The considerable inefficiencies associated with state involvement in the economy and the growth of corruption, have been dramatically exposed in countries that have followed this view of development,
