Here, we present a promising wearable solution for the practical, automated, and accurate monitoring of low back loading during manual material handling. We found that two key sensors for accurately monitoring low back loading are a trunk IMU and pressure insoles. Using signals from these two sensors together with a Gradient Boosted Decision Tree algorithm has the potential to provide a ...

His solution is to abandon the principle in favor of almost unlimited speech. This is a powerful argument, but there seem to be at least two problems. The first is that the harm principle would actually allow religious and political speech for the same reasons that it allows most pornography and hate speech, namely that it is not possible to demonstrate that such speech does cause direct harm ...

A Tobin tax was originally defined as a tax on all spot conversions of one currency into another. It was suggested by James Tobin, an economist who won the Nobel Memorial Prize in Economic Sciences. Tobin's tax was originally intended to penalize short-term financial round-trip excursions into another currency. By the late 1990s, the term Tobin tax was being, contrary to its original use, used ...
