When the plague comes it sweeps across the country and lingers in the air for 80 years, annihilating races and sparing no one over the age of 20. If all post-apocalyptic works are really about the anxieties of the present, Sandra Newman’s The Country Of Ice Cream Star—a novel of staggering, sometimes maddening, ambition—considers the broadest and most potent.

The Country of Ice Cream Star is a pretty hefty novel to dissect... It takes place in a future, dystopic America. The majority of the characters are under the age of 18, because generally around that time a plague like disease strikes them and they die. The main protagonist is 15 yr old Ice Cream Star. If you're already put off because this is starting to sound like one out a million YA dystopian novels, then stop, because this is nothing like that. Some people may be squeamish about ...

THE COUNTRY OF ICE CREAM STAR takes place 85 years after a mysterious illness has wiped out much of the world’s population. The virus appears to persist, however --- virtually no one survives past the age of 18 or 19 without succumbing to a deadly illness called "posey." The result, in the remnants of the United States, anyway, is a society ruled by teenagers, in which young people (all of ...
